

Stop Sticky Buildup Before It Becomes a Drain Problem

Dispenser Guard is a time-release drip tray cleaner that helps reduce sticky syrup residue, nuisance odors, and drain-line buildup in beverage dispenser trays for up to 30 days.

CONTINUOUS CLEANING | REDUCES BUILDUP | NO MESSY LIQUIDS

What's building up in your drip tray?

Sticky syrup, sugar residue, and beverage overflow quickly accumulate beneath dispenser grates. Left untreated, this buildup can lead to clogged drain lines, foul odors, and unsanitary conditions in customer-facing beverage areas.

Why Choose Dispenser Guard?

Continuous Cleaning

Time-release formula activates with liquid contact to clean trays and drain lines for 30 days.

Reduced Drain Issues

Helps reduce buildup that can restrict flow and contribute to clogs or overflow.

Fights Odors

Reduces residue that contributes to nuisance odors in beverage service areas.

No-Mess Application

Non-dissolving strip stays in place under the grate—no mixing, measuring, or daily maintenance.
