

## Tech Sheet — Drain Rings®

EPA-registered OR NSF Certified-Green options

### ■ Product Overview

Drain Rings® are flexible polymer rings encased in knit fabric, designed for use in floor drains. They provide long-lasting preventative treatments, prevents buildup, clogs, and odors.

- **Form:** Circular polymer ring
- **Color:** Pale Yellow, covered in knit fabric
- **Primary Use:** Long-lasting drain protection for sanitary and commercial drains

### ■ Key Benefits

- Helps prevent clogs, odors, and drain overflows
- Maintains size and weight in water (will not shrink or dissolve)
- Simple installation and replacement
- Effective preventative maintenance in drain systems
- Available in EPA Registered or NSF Green Certified formats
- Time-Release Formula: Provides continuous cleaning action.

### ■ Application

Form into ring, place directly into the lip of the drain. When it encounters water, Drain Rings releases a proprietary blend that keeps drains clean. During periods when no water is present, the ring will retain its ingredients.

### ■ Safety & Handling

- EPA Registered Drain Rings: EPA Reg. No. 59682-1
- NSF Certified Drain Rings: Green certified by CHEMTEL since 2008
- PPE Recommended: Gloves, eye protection, wash hands after handling
- Will not cause Quat spikes in runoff

### ■ Environmental Info

Toxic to aquatic life — prevent direct release to waterways. Dispose of used product and container according to local regulations.

### ■ Available Sizes / Codes

- Standard Drain Rings for most commercial floor drains fit 6" to 8" drains.
- Additional sizes available by request.
- Reinforced Drain Rings - offer foam spacer and plastic band for enhanced fitment.

### ■ Certifications

- EPA Registered Biocide (SDS shared with Algae Guard)
- NSF Green Certified (SDS shared with PanGuard)
- USDA compliant ring
- U.S. manufactured at Controlled Release Technologies Shelby, NC facility
