

Tech Sheet — First Strike Micro Coat

■ Product Overview

First Strike Micro Coat is a ready-to-use coil coating designed for indoor evaporative coils. Once applied, it forms an invisible, protective layer that bonds with coil fins to keep them clean, resist dirt, and help prevent growth. This ensures long-term efficiency and reduces maintenance needs.

- **Form:** Ready-to-spray liquid
- **Color:** Clear when dry
- **Primary Use:** Coil protection & cleanliness

■ Key Benefits

- Keeps indoor coils clean year-round - lasts one year or longer
- Forms ionic bond with coil fins — repels dirt & debris
- Fills pitting caused by repeated cleanings
- Invisible to heat transfer
- Sheets water for better system efficiency
- Quick application; units back in service within 1 hour
- Neutral pH, non-flammable, low VOCs

■ Application

- Ready-to-use; just spray directly on coils
- 1 Gallon coats both sides of a 50-ton coil
- 1 Quart coats both sides of a 12-ton coil

■ Safety & Handling

- GHS Signal Word: WARNING
- Hazards: Causes skin & eye irritation; harmful to aquatic life

Precautions:

- Wear protective gloves & eyewear
- Wash skin thoroughly after handling
- Avoid release to waterways

■ Environmental Info

- Contains no hazardous heavy metals
- VOC Content: ~0 g/L
- Protects coil life while reducing energy use

■ Available Sizes / Codes

16oz, 1 Quart, 1 Gallon

■ Certifications

- Certified Green
