

## Tech Sheet — Trench Clean

### ■ Product Overview

Trench Clean is a time-release polymer strip designed specifically for use in trench drains. Trench clean, releases detergents, wetting agents, and corrosion inhibitors when exposed to water. Trench Clean provides consistent cleaning and protection for long, narrow trench systems that are especially prone to buildup.

- **Form:** polymer strip in knit fabric
- **Color:** Pale Yellow covered by knit fabric
- **Primary Use:** Continuous cleaning and maintenance of trench and slot drain systems

### ■ Key Benefits

- Keeps trench drains clear of buildup, and odors.
- Helps prevent odors, clogs, and standing water issues
- Releases evenly across long trench surfaces
- Provides corrosion protection for galvanized trench materials
- Reduces maintenance costs and service interruptions

### ■ Application

- Place strips directly into the trench or slot drain for immediate action. Secure via excess fabric with provided shock control disk or zip tie, depending on individual needs.
- Replace monthly for best results, depending on water flow and system conditions

### ■ Safety & Handling

- Refer to PanGuard® SDS for detailed safety information.
- Signal Word: Danger
  - Causes serious eye and skin irritation; harmful if swallowed.
  - PPE Recommended: Gloves, eye protection, and wash hands after handling.

### ■ Environmental Info

- Very toxic to aquatic life — prevent direct release to waterways
- Dispose of used product and container in accordance with local regulations

### ■ Available Sizes / Codes

- TC-6: For standard trench drains, TC-9 for high impact areas
- Custom sizes available upon request for unique trench or slot dimensions

### ■ Certifications

- Uses the NSF Green Certified PanGuard® SDS
- U.S. manufactured at Controlled Release Technologies, Shelby, NC facility
